

LIST OF CORRECTIONS

This publication has been prepared primarily by assembling and binding the maps and tabular materials originally issued in the separate PG(1)-A, B, C, and D final reports for the State. This plan was adopted in order to conserve public funds. The corrections listed below represent changes which would ordinarily have been made if this publication had been prepared by reprinting these maps and tabular materials. Those items with an asterisk (*) consist of

errors which affect not only the specific figure(s) mentioned but also affect other data in this publication. Among the other data which might be involved are the statistics for a larger area of which the particular area is part and the statistics by such classifications as urban-rural residence and size of place. The user can, of course, carry through these types of changes if he thinks them worthwhile.

Change 1939 population of King Island (U) from ... to 208 and South Naknek (U) from ... to 134.

Pages 26 and 37, tables 19 and 28*

The number of inmates in table 28 shown for Sitka Election District includes approximately 621 persons who should have been classified as "other" persons in group quarters. This misclassification also affects the corresponding numbers for the State, shown in table 19.

Tables 35, 37 to 44, 46 to 52, 54 to 58, 60, 61, 63 to 65, 67, 69, 71, and 91 to 93

In the chapter C tabulations for Alaska, 181 persons (almost all males) living in group quarters that housed agricultural workers were classified incorrectly as rural-nonfarm residents. These quarters were located on farms, and hence these persons should have been classified as rural-farm residents. All chapter C tables which present data on farm-nonfarm residence are subject to this error. The overall impact is relatively minor for rural-nonfarm males, amounting to an overstatement of only a fraction of one percent; for rural-farm males, on the other hand, the understatement is about 14 percent. The impact of the error on the figures for particular groups or areas may, of course, be substantially smaller or greater. When this error was discovered, it was no longer feasible to retabulate the chapter C data. In the chapter D tabulations, however, the error was eliminated; and therefore, for certain subjects, correct State figures can be obtained from the appropriate chapter D tables. For corrections in chapter C table 37, see chapter D table 95; 38, see 96; 44 and 46, see 101; 47, see 103; 48, see 104; 49 and 50, see 106 and 107; 51, see 113; 52 and 54, see 115; 55, see 118; 57, see 121; 65, see 139; 67, see 133; 71, see specific subject tables listed above.

For "Construction craftsmen," under "Number, 1960," change 2,852 to 2,848; and under "Percent increase, 1950 to 1960," change -11.3 to -11.5. For "Other craftsmen," change 1,516 to 1,520, and 43.6 to 43.9, respectively.

Pages 70, 71, 88, 101, and 102, tables 65, 76, and 86

The stub line "Husband-wife families, one earner, two children under 18 years" should read "Husband-wife families, head an earner, two children under 18."

Page 111, table C-2

The nonresponse rates for "Birth date, decade unknown" erroneously exclude nonresponses for group quarters members other than inmates.
